

# How To Use **ChatGPT** for Epic **LinkedIn Content**

A step-by-step guide

*By Sam Szuchan*

First, we'll use ChatGPT to create content ideas.

But before doing anything with ChatGPT, **you need to train it.**

Without context, its ideas are too generic to be useful.

To demonstrate...

Give me ideas for LinkedIn posts.

Sure! Here are some ideas for LinkedIn posts:

1. Share a recent project you've worked on and the challenges you faced.
2. Write a post about a new skill you've learned or are currently learning.
3. Share an article or blog post that you found interesting or thought-provoking.
4. Share your thoughts on a current industry trend or news item.
5. Share a piece of career advice you've found helpful.
6. Share a success story or a lesson learned from a recent experience.
7. Share a personal or professional goal you are working towards.
8. Write a post about a networking event or industry conference you recently attended.
9. Share a quote or message that resonates with you.
10. Share a post about a cause or issue that you are passionate about.

I hope these ideas are helpful!

**Way too broad.**

**I need specific, niche-relevant ideas.**

So let's give it something to work with.

How about 10 of my top-performing posts?

## **My Best LinkedIn Posts**

1. 11 Copywriting Tricks Apple Uses
2. 11 Writing Tools for Transforming Your Reach
3. Software to Start Your Service Business

**Much better—I honestly love several of them.**

Let's run a shorter #11:

**"Copywriting Tricks for Engaging Social Posts."**

So we have our idea, how about a great hook?

ChatGPT can help with that too.

Like before, we'll need to feed it inspo (**steal these**):

## Epic LinkedIn Hooks

1. [X] ways to [outcome] without [common issue] in [x] days.
2. How I went from [bad position] to [great position] in [unit of time]

9. [X] ways to achieve [awesome outcome] in months, not years.
10. Here's how [successful authority] dominates [their industry]:|

# Let's plug them in.

I want to write a post called "Copywriting Tricks for Engaging Social Posts," and I need a hook for the first line. Give me 10 ideas based on these hooks please:

## The result:

1. 7 Simple Ways to Increase Engagement on Your Social Posts Without Spending Hours on Them
2. How I Went from Struggling to Get Any Social Media Engagement to Consistently Getting Hundreds of Likes and Comments in Just One Month
3. I've Worked as a Copywriter for 10 Years. Here's What I've Learned About Crafting Engaging Social Posts
4. I've Grown My Social Media Following to Over 10,000 in Just 6 Months. Here's How I Did It
5. I've Read Dozens of Books About Social Media Marketing, So You Don't Have To. Here's What I've Learned About Creating Engaging Posts
6. What Others in the Copywriting Industry Won't Tell You About Crafting Engaging Social Posts
7. Stop Spamming Your Followers with Boring Posts. Here's What You Should Do Instead
8. There's No Shortcut for Getting Engagement on Your Social Posts. Only Quality Content Will Do
9. 5 Quick and Easy Ways to Get More Engagement on Your Social Posts in Just a Few Days
10. Here's How Top Social Media Influencers Dominate Their Niches with Engaging Posts

**Mind blown?** It's only just begun.

How about we outline a post using  
PAS?

(If you don't know, PAS is **Problem,**  
**Agitate, Solution**—a copywriting  
framework)

My hook will be "Stop spamming your followers with boring posts. Here's what you should do instead." Outline a post for me following this hook using the Problem Agitate Solution framework.

#### Problem:

- Statistics on how many social media users are scrolling past or unfollowing boring content
- Examples of common mistakes that lead to boring posts, such as lack of personality or value
- The negative consequences of boring posts, such as decreased engagement and lost followers

#### Agitate:

- Emphasize the importance of engaging social media posts for building a strong online presence
- Share examples of successful businesses that have used creative and engaging social media posts to stand out from the competition
- Highlight the potential benefits of engaging social media posts, such as increased brand awareness, lead generation, and customer loyalty

#### Solution:

- Offer practical tips and strategies for crafting engaging social media posts
- Suggest tools and resources that can help businesses create visually appealing and compelling content
- Encourage businesses to experiment with different types of posts and to always be on the lookout for new and creative ways to engage their followers

#### Conclusion:

- Recap the main points of the post and emphasize the importance of engaging social media posts for building a strong online presence
- Encourage businesses to try out the strategies and tips shared in the post to see an improvement in their social media engagement

Now that's amazing and all, but I'm a carousel person.

So I asked ChatGPT to convert each section into **individual headings...**

# It didn't disappoint.

## Introduction:

- "Why Boring Social Posts Are Hurting Your Online Presence"

## Problem:

- "Why Your Followers Are Ignoring Your Posts"
- "The Missteps That Lead to Boring Posts"
- "The Consequences of Boring Posts"

## Agitate:

- "The Value of Engaging Social Posts"
- "Real-Life Examples of Businesses That Shine with Their Social Posts"
- "The Rewards of Engaging Social Posts"

## Solution:

- "Steps and Strategies for Crafting Engaging Social Posts"
- "Tools and Resources for Creating Engaging Content"
- "Exploring Different Types of Posts"

## Conclusion:

- "The Role of Engaging Social Posts in Building a Strong Online Presence"
- "Try These Strategies and Tips to Boost Your Social Engagement"

But wait—**there's more.**

I have an idea, hook, outline, and headings.

But I still need cover art for my carousel.

# Did you know about **Canva's** **text-to-image app?**

Type what you'd like to see, and watch it come to life.

You're invited to try our brand new technology that generates whatever image you describe. Leave feedback afterwards to help shape the future of Text to Image.

Use in new design

By using this app, you agree to its [Terms & Conditions](#) and [Privacy policy](#).

Let's plug in this prompt and see what happens...

a man scrolling through LinkedIn on his phone, in the style of Vincent van Gogh, highly detailed, no distortion

**So let's recap.** Not only did AI gives us high-quality:

- Ideas
- Hooks
- A PAS outline
- Headings

But it also gave us original art.

Just let that sink in.
